Checks will be returned if a course is canceled.

Transportation:

Students must provide their own transportation to and from High Technology High School.

Food:

Students must bring their lunch or purchase food from the Student Commons at Brookdale.

CO2 Drag Race Car Technology

Learn about how to use compressed air to propel and race a small racecar. Using 3D modeling software and mechanical parts design & build your own CO2 racecar and compete with your classmates. No experience is necessary for this one-week summer enrichment program.

Boys & girls entering 6th, 7th, & 8th grade who are curious, creative and wish to enhance their technical skills are eligible for this new one week program at High Technology High School located on Brookdale Community College Campus. The only requirement is the willingness to develop their technical skills and be prepared to race. Using state-of -the-art technology 3D modeling software and Research & Development laboratory girls & boys will design and build CO2 racecars. Students are not required to have any previous computer knowledge or drawing skills.

Please complete both sides of this registration form / permission slip and return with payment to:
